

CBHS Hon Astronomy Individual Project #4 Earth's Interior and Atmosphere

In this project you will draw and label the Earth's interior and atmosphere. These drawings should be done neatly on separate sheets of unlined paper. You are encouraged to use a compass, protractor and ruler to make your drawings. Sketch the relative sizes of the various regions as close to scale as possible. Each picture should fill one sheet of paper. Use different colors for different regions, and label the parts of your pictures. Be sure to include the size and temperature of each region of your drawings.

Task	Points
Neat color hand-drawn sketch of Earth's interior	30
Regions labeled with names and temperatures	10
Size of regions labeled and drawn to scale	10

Task	Points
Neat color hand-drawn sketch of Earth's atmosphere	30
Regions labeled with names and temperatures	10
